Department, Rajasthan Jaipur**

ESTIMATES
OF
DISTRICT DOMESTIC
PRODUCT
OF
RAJASTHAN

2011-12 to 2023-24

Directorate of Economics & Statistics
Statistics Department, Rajasthan, Jaipur

**Special Secretary
Department of Planning & Statistics
Government of Rajasthan**

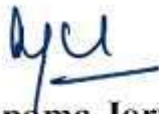

Foreword

District Income is considered as one of the most important indicators/barometers to measure the economic growth/ development of a district and estimates of Per Capita Income is considered to be an important indicator that measures the standard of living of the people of the District. District Income estimates also illuminate on the regional development of the economy and its structural shift over the years. These estimates are useful to study the inter-sectoral and inter district economic imbalances and help in removing such disparities.

The State authorities and research institutions often require data on economic activities and standard of living of people at the district level for planning and policy purposes. The publication “**Estimates of District Domestic Product of Rajasthan**” presents the district income from 2011-12 to 2023-24.

I hope this publication will help to analyze the progress made by the district so far on economic front and also serve as an input to public representatives for planning at district level.

Jaipur**

(Anupama Jorwal)

**Director and Joint Secretary
Directorate of Economics and Statistics**

PREFACE

Directorate of Economics & Statistics is a nodal department for compilation of statistics in various areas including preparation of State Income Estimates and District Income Estimates.

District Income estimates help in drawing up suitable planning programmes and in measuring the effects of their implementation. Thus, they may prove very useful for formulation, review and implementation of broad policy objectives.

In the present publication, estimates of Gross / Net District Domestic Product and Per Capita Income with the new base year 2011-12 at current and constant prices from 2011-12 to 2023-24 are presented.

This publication could be useful to the policy makers, administrators, planners and research scholars. Any Suggestions, feedback or comments on this report are welcome to improve the publication in the future.

District Domestic Product of Rajasthan

At a Glance

INTRODUCTION

District income or the district domestic product is most important indicator of economic activities and standard for living of people. Income of a district indicates economic growth and development of a district as compared to others and helps in assessing level of development of a district, for planning and policy purposes and hence allocating resources required to be assessed for the betterment of the district and state as a whole. It also indicates strength and weakness of districts as the building blocks of a state.

The detailed district wise data are not available for calculation of GDDP for sector other than primary sectors. So for allocation of GSDP to different districts, sector wise district indicators are required. Directorate of Economics and Statistics Rajasthan have been making several efforts in this regard to make the methodology of District Domestic Product stronger. The state DES have conducted several surveys/ studies to prepare these indicators which have been used to estimate the DDP of Rajasthan and making the estimation more closer to actual. These estimates are on the same base 2011-12 as that of the state.

For strengthening and improving the District Estimates studies/surveys conducted in the State:

- Study on Banking and Insurance Sector (No. of banks and companies, branches/offices, work force and compensation of employees etc.)
- Study on Railway Sector (no. of railway stations, track length, railway offices, work force and compensation of employees etc.)
- Study on Input cost of Major crops in Rajasthan (major 14 crops in State)
- Study on Value Addition of Private part of Education Sector

In this book the district domestic product estimates for the year 2011-12 to 2023-24 have been compiled on new base year i.e. 2011-12. The gross district domestic estimates for current as well as constant, net district domestic estimates for current as well as constant and their sectorial share is also been given in this publication. In addition, the per capita income of districts at current and constant prices from the year 2011-12 to the year 2023-24 at base year 2011-12 are also given. The estimates from 2021-22 are provisional which will be revised as per revision of state estimates and the estimates for the year 2023-24 are based on second advance estimates.

CONCEPT AND DEFINITION

The District Income is a measure in monetary terms of the volume of all goods and services produced in a district during a given period of time, accounted without duplication. The estimates of District Domestic Product (DDP) also termed as District Income is compiled in a similar manner to the one being followed in the case of State Domestic Product (SDP).

MEASURES RELATING TO INCOME

Gross District Domestic Product (GDDP) represents the sum of economic value of all goods and services produced within the geographical boundary of the district after deducting the necessary inputs consumed in the process of production, Financial Intermediation Services Indirectly Measured (FISIM) and adding Net Taxes. From this Gross District Domestic Product, Consumption of Fixed Capital (CFC) is deducted to arrive at the Net District Domestic Product (NDDP) which is normally termed as District Income. The District income is divided by the mid-year estimated population of the district to get the per capita income of that district.

DIVISION-WISE SALIENT FEATURE OF THE ESTIMATES ARE AS FOLLOWS:

1) Ajmer Division

Ajmer division being the 3rd largest contributor in state's GVA at current prices for the year 2023-24 contributing 15.28% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 2,33,588 crore in the year 2023-24 which was ₹ 61,582 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 5.74% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 24.26% in agriculture and allied activities, 34.10% in industry sector and 41.64% in service sector which was 23.48% in agriculture and allied activities, 37.61% in industry sector and 38.91% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,81,043 in the year 2023-24 which is above the state average.

2) Bharatpur

Bharatpur division being the 7th largest contributor in state's GVA at current prices for the year 2023-24 contributing 6.73% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 1,02,936 crore in the year 2023-24 which was ₹ 28,938 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 6.08% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 32.02% in agriculture and allied activities, 17.91% in industry sector and 50.06% in service sector which was 34.15% in agriculture and allied activities, 22.15% in industry sector and 43.70% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,19,982 in the year 2023-24 which is below the state average.

3) Bikaner

Bikaner division being the 5th largest contributor in state's GVA at current prices for the year 2023-24 contributing 11.89% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 1,81,665 crore in the year 2023-24 which was ₹ 61,452 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 3.15% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 37.60% in agriculture and allied activities, 17.90% in industry sector and 44.50% in service sector which was 44.62% in agriculture and allied activities, 22.64% in industry sector and 32.75% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,69,029 in the year 2023-24 which is above the state average.

4) Jaipur

Jaipur division being the largest contributor in state's GVA at current prices for the year 2023-24 contributing 29.57% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 4,52,017 crore in the year 2023-24 which was ₹ 1,22,718 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 5.90% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 17.96% in agriculture and allied activities, 34.85% in industry sector and 47.18% in service sector which was 17.98% in agriculture and allied activities, 41.19% in industry sector and 40.83% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 2,01,380 in the year 2023-24 which is above the state average.

5) Jodhpur

Jodhpur division being the 2nd largest contributor in state's GVA at current prices for the year 2023-24 contributing 16.40% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 2,50,730 crore in the year 2023-24 which was ₹ 73,299 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 8.55% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 32.91% in agriculture and allied activities, 26.20% in industry

sector and 40.89% in service sector which was 31.00% in agriculture and allied activities, 33.90% in industry sector and 35.10% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,59,259 in the year 2023-24 which is below the state average.

6) Kota

Kota division being the 6th largest contributor in state's GVA at current prices for the year 2023-24 contributing 8.08% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 1,23,569 crore in the year 2023-24 which was ₹ 36,937 crore in the year 2011-12. The economy is expected to register a compound average growth rate of 6.00% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 31.32% in agriculture and allied activities, 21.50% in industry sector and 47.18% in service sector which was 37.92% in agriculture and allied activities, 21.72% in industry sector and 40.35% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,64,261 in the year 2023-24 which is below the state average.

7) Udaipur

Udaipur division being the 4th largest contributor in state's GVA at current prices for the year 2023-24 contributing 12.03% in State GSVA as per provisional estimates. The size of the economy is estimated to be ₹ 1,83,880 crore in the year 2023-24 which was ₹ 49,911 in the year 2011-12. The economy is expected to register a compound average growth rate of 11.29% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 26.11% in agriculture and allied activities, 27.58% in industry sector and 46.31% in service sector which was 27.34% in agriculture and allied activities, 30.54% in industry sector and 42.12% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,35,029 in the year 2023-24 which is below the state average.

The size of the economy i.e. DDP at Current Prices is estimated to be ₹ 22,943 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 4.35% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 31.60% in agriculture and allied activities, 17.27% in industry sector and 51.52% in service sector which was 33.55% in agriculture and allied activities, 26.48% in industry sector and 39.97% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,30,883 in the year 2023-24 as per provisional estimates which was ₹ 50,553 in the year 2011-12.

30. Sikar

The size of the economy i.e. DDP at Current Prices is estimated to be ₹ 55,592 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 6.28% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 33.15% in agriculture and allied activities, 18.09% in industry sector and 48.75% in service sector which was 30.15% in agriculture and allied activities, 24.23% in industry sector and 45.62% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,60,022 in the year 2023-24 as per provisional estimates which was ₹ 47,016 in the year 2011-12.

31. Sirohi

The size of the economy i.e. DDP at Current Prices is estimated to be ₹ 23,496 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 6.04% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 22.39% in agriculture and allied activities, 37.96% in industry sector and 39.65% in service sector which was 34.21% in agriculture and allied activities, 27.67% in industry sector and 38.12% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,70,475 in the year 2023-24 as per provisional estimates which was ₹ 55,303 in the year 2011-12.

32. Tonk

The size of the economy i.e. DDP at Current Prices is estimated to be ₹ 28,840 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 5.66% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 37.51% in agriculture and allied activities, 21.22% in industry sector and 41.27% in service sector which was 40.49% in agriculture and allied activities, 22.09% in industry sector and 37.43% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,54,932 in the year 2023-24 as per provisional estimates which was ₹ 49,782 in the year 2011-12.

33. Udaipur

The size of the economy i.e. DDP at Current Prices is estimated to be ₹ 61,793 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 6.00% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 22.12% in agriculture and allied activities, 26.51% in industry sector and 51.37% in service sector which was 23.64% in agriculture and allied activities, 31.39% in industry sector and 44.97% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,53,231 in the year 2023-24 as per provisional estimates which was ₹ 52,242 in the year 2011-12.

Overall State

The size of the economy i.e. GSDP at Current Prices is estimated to be ₹15,28,385 crore in year 2023-24 as per provisional estimates. The economy is expected to register a compound average growth rate of 5.69% during the period 2011-12 to 2023-24 at constant (2011-12) prices.

The sectoral composition for the district in the year 2023-24 at current prices is estimated to be 26.72% in agriculture and allied activities, 28.21% in industry sector and 45.07% in service sector which was 28.56% in agriculture and allied activities, 32.69% in industry sector and 38.75% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be ₹ 1,67,964 in the year 2020-21 as per provisional estimates which was ₹ 57,192 in the year 2011-12.

Gross District Domestic Product at constant (2011-12) prices

According to gross district domestic product at constant (2011-12) prices for the year 2011-12, Jaipur being the capital of the state had the highest value and contributed to 13.19% in State's GSDP. Jaipur was followed by Alwar which contributed to 8.12% in State's GSDP then Jodhpur whose contribution was 4.85% followed by Bhilwara contributing to 4.76% and Barmer contribution was 4.57%.

The 5 districts having least gross district domestic product at constant (2011-12) prices in the same year were Pratapgarh higher than that was Dholpur then Dungarpur followed by Jaisalmer then Karauli which collectively contributed to 5.65% to state's gross domestic product.

In 2023-24 there was slight change in ranking of districts according to gross district domestic product at constant (2011-12) prices. Among the top 5 districts, Jaipur still remained on top contributing to 14.60% to state's GSDP, followed by Alwar contributing to 8.85% to GSDP. Jodhpur is contributing 5.32% then Ajmer contributing to 4.47% and then Bhilwara whose contribution is 4.38% to state's gross domestic product.

The 5 districts having least gross district domestic product at constant (2011-12) prices remained almost same as 2011-12 they are Pratapgarh higher than that was Dungarpur then Dholpur followed by Jaisalmer then Karauli which collectively contributed to 5.61% to state's gross domestic product.

Gross District Domestic Product at current prices

According to gross district domestic product at current prices for the year 2011-12, Jaipur being the capital of the state had the highest value and contributed to 13.19% in State's GSDP. Jaipur was followed by Alwar which contributed to 8.12% in State's GSDP then Jodhpur whose contribution was 4.85% followed by Bhilwara contributing to 4.76% and Barmer contribution was 4.57%.

The 5 districts having least gross district domestic product at current prices in the same year were Pratapgarh higher than that was Dholpur then Dungarpur followed by Jaisalmer then Karauli which collectively contributed to 5.65% to state's gross domestic product.

In 2023-24 there was slight change in ranking of districts according to gross district domestic product at current prices. Among the top 5 districts, Jaipur still remained on top contributing to 13.89% to state's GSDP, followed by Alwar contributing to 7.84% to GSDP. Jodhpur is contributing 5.44% then Bhilwara whose contribution is 5.02% and then Ajmer contributing to 4.60% to state's gross domestic product.

The 5 districts having least gross district domestic product at current prices are Pratapgarh higher than that was Dholpur then Dungarpur followed by Jaisalmer then Karauli which collectively contributed to 5.75% to state's gross domestic product.

*Provisional Estimates

SECTORAL DISTRIBUTION OF GROSS DISTRICT DOMESTIC PRODUCT

The economy of district is also divided into three sectors i.e. agriculture, industry and service sector in the same pattern as the economy of the state. The agriculture & allied activities of the economy constitutes mainly crops, livestock, fishing and forestry & logging. The industry sector consists of mining & quarrying, manufacturing, electricity, gas, water supply & other utility services and construction while the service sector consists of all types of services including trade, hotel, transport, communication and services related to broadcasting, financial, real estate & professional services, public administration and other services.

Initially the country's as well as the State's economy was predominantly rural and agriculture based. Since then the economy has gradually diversified and matured as a result the contribution of the service sector is gradually increased.

In the State's economy the contribution of agriculture & allied activities is decreased from 28.56 per cent in 2011-12 to 26.72 per cent in the year 2023-24, share of industry sector decreased from 32.69 to 28.21 in 2023-24 per cent while the contribution of service sector increased from 38.75 per cent in 2011-12 to 45.07 per cent in the year 2023-24 at current prices.

Figure 5

The Sector wise composition GSVA at current prices of district Jaipur in the year 2011-12 was 11.35% in agriculture sector, 41.01% in Industry sector while maximum share taken by service sector i.e. 47.64%.

The second district which had the maximum share in state's GDP was Alwar in which major share was taken up by Industry sector contributing to 59.59% followed by services giving a share of 23.84% and least was agriculture having a share as low as 16.56%.

Jodhpur district which contributed to 4.85% in GSDP has a sectoral contribution of 27.40%, 25.83% and 46.77% in agriculture, industry and service sector respectively. 4th and 5th position was taken up by Bhilwara and Barmer contributing to 16.24%, 54.84%, 28.92% and 23.35%, 56.88%, 19.77% in agriculture, industry and service sector respectively.

In the year 2023-24, the sectoral composition at current prices for Jaipur 11.26% in Agriculture sector, declined to 34.02% in Industry sector while in Service sector it increased to 54.72% as compared to the year 2011-12.

Alwar district maintained second rank in state's GDP at current prices. Which major share was taken up by Industry sector which declined to 55.28% followed by services whose share increased to 30.02% and least was agriculture which reach at 14.70%.

Jodhpur also sustained his position which had the third maximum share in state's GDP at current prices. Which major share was taken up by services sector whose share increased to 47.15% and Agriculture sector which reach at 31.73% and least was Industry sector which declined to 21.12%. Bhilwara and Ajmer contributing to 18.38%, 50.06%, 31.56% and 19.34%, 31.86%, 48.80% in agriculture, industry and service sector respectively.

In the year 2023-24 at current prices the districts whose economies are mainly based of agriculture and allied activities are Jaisalmer with 56.47% followed by Baran with 42.58% followed by Pratapgarh with 41.91%, Jalore with 41.59% and Bikaner with 40.86% whereas the state average of 26.72%.

In the year 2023-24 at current prices the districts whose economies are mainly based of Industries are Alwar with 55.28% followed by Bhilwara with 50.06% followed by Rajsamand with 43.28%, Sirohi with 37.96% and Pali with 34.03%. Whereas the state average stand at 28.21%.

In the year 2023-24 at current prices the districts whose economies are mainly based of Service sector are Jhunjhunu with 57.15% followed by Dungarpur with 55.18% followed by Kota with 55.15%, Jaipur with 54.72% and Churu with 53.33%. Whereas the state average stand at 45.07%.

The following graph shows the sector wise composition of all the districts at current as well as at constant (2011-12) prices for the year 2023-24.

*Provisional Estimates

METHODOLOGY FOR PREPARATION OF DISTRICT INCOME ESTIMATES

The methodology for preparation of District Income estimates very much depends on availability of basic data at district level. The data available at the District level is not satisfactory for estimation of income at the district level for all the sectors. Nevertheless, the data in respect of Primary Sector is fairly sound, but appears to be very scanty in respect of remaining sectors. Therefore the district level data could be utilized to the extent of its availability to compute the district income estimates adopting the state level methodology. In the case of non-commodity producing sectors, where the district wise basic data are not available, the State level estimates are allocated to the districts on the basis of suitable district wise indicators. Further, in some of the commodity producing sectors, though the district wise production data are available, the corresponding prices may not be available. In such cases, district wise production and State average prices will have to be utilized for preparation of district income estimates. Apart from this, wherever certain ratios, norms, yield rates etc., are used for the State level estimates and which are normally not available at the district level, the State level ratios, yield rates etc., are used for district income estimates.

Sector wise details of methodology for preparation of Gross District Value Added (GDVA) are given below

1) CROPS

As in the Crop Sector district level data on production and prices are generally not available uniformly for all the crops, hence for estimation purpose, crops can be classified in different categories as follows:

- i.** Crops for which district-wise data on area, production and prices are available: District-wise value of output for each crop is worked out using district-wise production and prices. Average wholesale prices as collected for principal crops barring some other minor crops like small millets, other pulses, other oilseeds, sun-hemp, Mesta, etc. from defined peak marketing period are used with the production for the purpose of valuation.
- ii.** Crops for which district-wise production is available but corresponding prices are not available: In such cases state weighted average prices are used for valuation. Using CSO norms, district level prices of small millets, other pulses and other oilseeds are used for preparing district level estimates.
- iii.** Crops for which district-wise data, both on production and prices are not available but area is available: In such cases, district- wise value of output is worked out by allocating the state level value of output on the basis of

district-wise area of the crops. Value of by-product of different crops is calculated by multiplying corresponding area of crops to prices provided by CSO. In case of kitchen garden 0.21 percent of net area sown of corresponding districts multiplying by value per hectare of fruits & vegetables except other fruits and vegetables.

- iv. **Miscellaneous and unspecified crops:** The crops for which neither production nor prices are available even at the state level but district-wise area is available, the value of output is worked out with the help of district-wise area and state level value per hectare.

Value of Inputs: As at the state level estimates, to arrive at the district wise Gross Value Added (GVA) from Crop sector, value of various input items are to be first deducted from the Gross Value of Output (GVO) of this sector and then the gross product from operation of Government Irrigation System is added to that. The deductible inputs are same as used at the State level viz. i) Seed, ii) Organic manure (Cattle and Buffalo dung), iii) Chemical Fertilizers, iv) feed of livestock, v) Pesticides & Insecticides, vi) Diesel oil consumption, vii) electricity, viii) Irrigation charges, ix) market charge, x) Repairs and Maintenance of fixed assets and other operational costs and (xi) FISIM.

To work out the value of these input items at the district level, the state level estimates arrived are distributed to various districts in proportion to district wise Gross Value of Output (GVO) of crop sector.

2) LIVESTOCK

Similar procedure as adopted at the state level to prepare the estimates are followed at the district level also.

- i. The results of Integrated Sample Survey (ISS) conducted by State Animal Husbandry Department provide State/District level data on production of milk, meat, wool and egg. It also provides estimates of category wise number of slaughtered animals. To estimate district-wise production of all other items (i.e. other than milk, meat, egg and wool), state level yield rates and ratios are utilized along with district estimates of number of relevant animals/poultry.
- ii. District-wise value of output may then be worked out by evaluating the production obtained as above, by the corresponding district prices, wherever available. In the absence of district level prices, the state prices are used for evaluating the district wise value of output of production. The total of the value of output thus worked out is adjusted to the state level estimates.

- iii. District-wise estimates of number of different categories of animals is worked out from the results of latest two livestock census assuming compound growth rates and utilized along with relevant yield rates to obtain the estimates of production of meat product of fats from fallen animals, meat by product (hide and skin of fallen animal) and increment.
- iv. District-wise increment in stock for cattle, buffalo, sheep, goat and camel is worked out and then total is calculated and then state level value is allocated among districts in proportion of its total.

Value of Inputs: The value of input of the state is allocated among the districts in proportion of GVO of district.

3) FORESTRY AND LOGGING

The estimates Gross Value Added from forestry sector allocating the state GVA among districts in proportion of district-wise forest area obtained from Agriculture statistics published by Directorate of Economics & Statistics.

4) FISHERIES

The value of output is worked out by multiplying the production by prices of inland fish, along with value of subsistence fish @ 12.5 percent of value of inland fish and added. Wherever, the district wise prices are not available, then district wise value is worked out using district wise production and state level prices. The operational costs including repairs and maintenance, i.e., @ 10 percent of value of inland fish and one percent of value of subsistence fish is to be deducted as inputs from gross value of output to get GVA.

5) MINING AND QUARRYING

The gross value of output is to be estimated on the basis of value of major and minor minerals. For both major & minor minerals, the district wise sale value is collected from the state Mines and Geology Department. The state value is allocated among district separately for major minerals, minor minerals, sand and petroleum as below:

Major Minerals: The district wise sale value of major minerals (except petroleum and natural gas) is provided by Mines and Geology Department, Udaipur and output ratio is made available by IBM, Nagpur. The unadjusted GVA of district is calculated by using sale value and output ratio for different major minerals. This district wise unadjusted GVA is used to allocate State GVA of major minerals among district.

Minor Mineral: The district wise sale value of minor minerals (except sand) is provided by Mines and Geology Department, Udaipur and output ratio is made available by IBM, Nagpur. The unadjusted GVA of district is calculated by using sale value and output ratio for different minor minerals. This district wise unadjusted GVA is used to allocate State GVA of minor minerals among district.

Sand: The district wise sale value of kankar bajri provided by Mines and Geology Department, Udaipur and output ratio is used same as minor mineral. The unadjusted GVA of district is calculated by using one third sale value of kankar bajri and output ratio. This district wise unadjusted GVA is used to allocate State GVA of sand among district.

Petroleum & Natural Gas: The district wise royalty of petroleum and natural gas is being provided by Petroleum Department. This is used to allocate the state value of petroleum and natural gas among districts.

The GVA of all four part are then added and input cost and FISIM is deducted to get district wise GVA.

6) **MANUFACTURING**

The Annual Survey of Industries (ASI) is the only comprehensive source of data for manufacturing sector at district level. Therefore, the State level estimates of this sector are distributed among the districts in the proportion of district-wise labour input (work force) from ASI report.

7) **ELECTRICITY, GAS, WATER SUPPLY & OTHER UTILITY SERVICES**

- i. **Electricity:** The State level estimates of GVA for electricity are allocated to the districts on the basis of number of technical and non-technical workers in electricity sector in the respective districts.
- ii. **Gas:** In case of Gas sub-sector, the State level GVA distributed to districts according to the district wise population of cattle.
- iii. **Water Supply & Other Utility Services:** The State level estimates of GVA from water supply & other utility services are allocated among districts on the basis of working force engaged in water supply & other utility services, obtained from the 6th Economic census.

8) CONSTRUCTION

For estimation purpose, construction sector is divided into public, supra-region, household and residual parts which are as under:

- i. **Public & Supra-Regional:** Public sub-sector includes Central government administration & Departmental Commercial Undertakings (DCU's), State government administration & DCU's, NDCU's (Central & State) and Autonomous Bodies. State's GVA of above are allocated on the basis of working force engaged in construction activities obtained from 6th Economic Census. Supra – Regional sub-sector consist of Railways which are allocated among the districts on the basis of number of railway stations obtained from the study on Railway Sector by State DES.
- ii. **RRBs, URBs, NRBs, Plantation and Other Household:** Construction activities undertaken by the household sector (both rural and urban), State level estimates are allocated among the districts in the proportions of projected number of houses separately for urban and rural areas. For non-residential building and other construction activities, it has been distributed among the districts on the basis of average of number of houses (urban and rural houses). State level estimates of Plantation and Other Household are allocated to district wise working force engaged in construction activity obtained from 6th economic census.
- iii. **Residual:** State level GVA including quasi government is distributed among the districts in the proportion of working force engaged in construction activities obtained from 6th Economic Census.

Thus, the estimates arrived separately as above are aggregated at the district level to provide estimates of district domestic products for construction sector.

9) TRADE, HOTELS AND RESTAURANTS

To estimate value addition of this sector, Gross value added at state level is to be allocated in proportion of number of persons employed in trade obtained from 6th economic census.

10) RAILWAY

The State level GVA of this sector is supplied by the NSO which was allocated to the districts in proportion of railway stations in the old base series. To improve the methodology for estimation of the district income of this sector, the Directorate of Economics and Statistics conducted a study on railway sector and obtained district

wise gross salary of workers employed in railway sector. Now in the new base year the GVA is allocated among various districts in proportion of district wise gross salary of workers employed in railways.

11) TRANSPORT BY OTHER MEANS THEN RAILWAYS

a) Road Transport:

- (i) Public Sector:** The state level estimates are allocated on basis of district wise working force of RSRTC employees obtained from their annual report.
- (ii) Private Sector:** The value added from private sector is allocated to the districts on the basis of district wise commercial vehicles registered in the district obtained from Transport Department.

GVA is obtained by adding public and private sector estimates.

b) Water Transport: It is Nil in the state.

c) Air Transport: The State Income from this sub-sector is allocated to the districts in 20:80 ratio where 20 per cent is equally allocated to the districts with airports and remaining 80 per cent is allocated to the districts having airports on the basis of number of air passengers.

d) Services incidental to transport: The State Income from this sub-sector is allocated to the districts on the basis of district wise commercial vehicles registered in the district obtained from Transport Department.

From the gross value added obtained by adding all [(a) to (d)] FISIM is to be deducted to get final GVA. FISIM is worked out by allocating the state FISIM of this sector in proportion of district wise value addition.

12) STORAGE

State level estimates are allocated to districts on the basis of Occupancy of state and central warehousing Godwans situated in the district.

13) COMMUNICATION AND SERVICES RELATING TO BROADCASTING

Estimates of State level GVA are allocated among various districts in proportion of number of persons engaged (Working Force) in communication services in the districts which were obtained from the 6th Economic Census.

14) FINANCIAL SERVICES

To improve the methodology for estimation of the district income of this sector, the Directorate of Economics and Statistics conducted a study on banking sector &

insurance sector. The GVA is allocated among various districts in proportion of district wise gross salary of workers employed in banking and insurance sector obtained from this study.

15) REAL ESTATE, OWNERSHIP OF DWELLINGS & PROFESSIONAL SERVICES

To prepare the District Domestic Product of this sector allocation method is used. The co-operate part is further sub divided in 2 sectors i.e. Real estate activities and Professional, scientific and technical. The Real estate activities was allocated to districts on the basis of district wise work force obtained from 6th Economic census till 2019-20. In order to improve the methodology since 2020-21 it is now allocated among districts on the basis of Income of Sale Deed obtained from Registration & Stamps Department. Professional, scientific and technical activities of state level GVA is distributed on the basis of District wise work force obtained from 6th Economic census.

The Un-incooperate part distributed on the basis of District wise work force obtained from 68th round of NSS. The ownership of Dwelling was distributed on basis of Number of Household till 2016-17 but to improve the estimation it is now allocated among the districts in the proportions of projected number of houses separately for urban and rural areas.

16) PUBLIC ADMINISTRATION

To obtain the District level estimates, State level data is of this sector were allocated in proportion of number of State Government employees in the obtained from the publication ‘Census of State Government Employees’ published by DES. Due to unavailability of data same was used till 2019-20, but in order to improve the estimates for 2020-21 number of employees were obtained from department of State Insurance and Provident Fund. The no of employees is not as good indicator as salary, so with continues efforts from 2021-22 the district wise salary of employees is used to allocate the state GVA that is received from Directorate of Treasury and Accounts.

17) OTHER SERVICES

The economic activities covered under this sector are as under:

- i. Educational Services,
- ii. Medical & Health Services,
- iii. Membership of Organizations not elsewhere classified,
- iv. Recreational services,
- v. Washing and Cleaning,

- vi. Hair Dressing,
- vii. Tailoring,
- viii. Funeral activities,
- ix. Private House Hold and
- x. Extra Territory services.

The District wise estimates of this sector is based on allocation method. The Education services, Medical services and others are estimated separately. To allocate the cooperate part of state level education sector, district wise gross value added obtained from the survey conducted by Directorate of Economics and Statistics was used.

For remaining the state level estimates of cooperate part is in these services are distribution on the basis of District wise work force obtained from 6th Economic Census. For Un-incooperate part of all the three sectors distributed the ratio based on district wise workforce obtained from 68th round of NSS is used.

LIMITATIONS OF DATA:

The district level estimates of income suffer from a number of limitations that relate to the inadequacy of data and methodology adopted. It is, therefore, suggested that these estimates may be used with discretion and caution. Important limitations are listed below:

- As regards data on district-wise output, wherever not available, the State level data of output have been distributed among various districts in the proportion of some suitable indicators.
- As regards district level prices, where not available, the State level prices or the prices of adjoining districts have been used as an alternative.
- For the purpose of district-wise cost of input items of crop, livestock and fisheries, the State level norms have been applied.
- Rates and ratio norms of different livestock products are available only at the State level and so those have been adopted uniformly for all the districts.
- The service sector based on Working force and GVA per worker and such data according to District wise are periodically available which requires updation for further year.
- In respect of supra regional sectors, State level estimates supplied by the Central Statistical Office, are allocated in the proportion of some suitable indicators to the districts.
- Bikaner being a dry region still contributing maximum to crop sector for year 2011-12 is due to rise in prices of guar seeds.
