Department of Planning & Statistics
Government of Rajasthan

Foreword

The State authorities and research institutions often require data on economic activities and standard of living of people at the district level for planning and policy purposes. District Income is considered as one of the most important indicators/barometers to measure the economic growth/ development of a district and estimates of per capita income is considered to be the indicator that measures the standard of living of the inhabitants of the district.

District Income estimates also illuminate on the regional development of the economy and its structural shift over the years. These estimates are useful to study the inter-sectoral and inter district economic imbalances and help in removing such disparities.

The present publication “Estimates of District Domestic Product of Rajasthan” is based on new base year 2011-12 and data for the year 2011-12 to 2020-21(AE) are presented in this publication.

I hope this publication will help to analyze the progress made by the district so far on economic front and also serve as an input to public representatives to plan for amelioration of districts.

July, 2021
Jaipur

(Naveen Jain)

**Director and Joint Secretary
Directorate of Economics and Statistics**

PREFACE

Directorate of Economics & Statistics is a nodal department for compilation of statistics in various areas including preparation of State Income Estimates. Apart from GSDP estimates, Regional Accounts in form of DDP estimates are also prepared as per NSO methodology and availability of data.

District Income estimates help in drawing up suitable planning programmes and in measuring the effects of their implementation. Thus, they may prove very useful for formulation, review and implementation of broad policy objectives.

In the present publication, estimates of Gross / Net District Domestic Product and Per Capita Income with the new base year 2011-12 at current and constant prices from 2011-12 to 2020-21(AE) are presented.

I hope this publication will help public representatives to analyze the progress made by the districts and in its policy making for improvement of the public. Suggestions for the improvement of this report will be appreciated at most.

District Domestic Product of Rajasthan

At a Glance

INTRODUCTION

District income or the district domestic product is most important indicator of economic activities and standard for living of people. Income of a district indicates economic growth and development of a district as compared to others and helps in assessing level of development of a district, for planning and policy purposes and hence allocating resources required to be assessed for the betterment of the district and state as a whole. It also indicates strength and weakness of districts as the building blocks of a state.

The detailed district wise data are not available for calculation of GDDP for sector other than primary sectors. So for allocation of GSDP to different districts, sector wise district indicators are required. Directorate of Economics and Statistics Rajasthan have been making several efforts in this regard to make the methodology of District Domestic Product stronger. The state DES have conducted several surveys/ studies to prepare these indicators which have been used to estimate the DDP of Rajasthan and making the estimation more closer to actual. These estimates are on the same base 2011-12 as that of the state.

For strengthening and improving the District Estimates studies/ surveys conducted in the State:

- Study on Banking and Insurance Sector (No. of banks and companies, branches/offices, work force and compensation of employees etc.)
- Study on Railway Sector (no. of railway stations, track length, railway offices, work force and compensation of employees etc.)
- Study on Input cost of Major crops in Rajasthan (major 14 crops in State)
- Study on Value Addition of Private part of Education Sector

In this book the district domestic product estimates for the year 2011-12 to 2020-21 (AE) have been compiled on new base year i.e. 2011-12. The gross district domestic estimates for current as well as constant, net district domestic estimates for current as well as constant and their sectorial share is also been given in this publication. In addition, the per capita income of districts at current and constant prices from the year 2011-12 to the year 2020-21(AE) at base year 2011-12 are also given.

CONCEPT AND DEFINITION

The District Income is a measure in monetary terms of the volume of all goods and services produced in a district during a given period of time, accounted without duplication. The estimates of District Domestic Product (DDP) also termed as District Income is compiled in a similar manner to the one being followed in the case of State Domestic Product (SDP). (Detailed methodology is annexed at page number 55)

Gross District Domestic Product (GDDP) represents the sum of economic value of all goods and services produced within the geographical boundary of the district after deducting the necessary inputs consumed in the process of production, Financial Intermediation Services Indirectly Measured (FISIM) and adding Net Taxes. From this Gross District Domestic Product, Consumption of Fixed Capital (CFC) is deducted to arrive at the Net District Domestic Product (NDDP) which is normally termed as

District Income. The District income is divided by the mid-year estimated population of the district to get the per capita income of that district.

District wise salient feature of the DDP estimates:

1. Ajmer

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 40966 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.54% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 20.81% in agriculture and allied activities, 25.86% in industry sector and 53.33% in service sector which was 17.68% in agriculture and allied activities, 34.48% in industry sector and 47.84% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 124548 in the year 2020-21 as per advance estimates which was Rs 62963 in the year 2011-12.

2. Alwar

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 65834 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.42% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 20.80% in agriculture and allied activities, 45.58% in industry sector and 33.62% in service sector which was 16.56% in agriculture and allied activities, 59.59% in industry sector and 23.84% in sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 137313 in the year 2020-21 as per advance estimates which was Rs 85205 in the year 2011-12.

3. Banswara

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 16476 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.39% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 28.51% in agriculture and allied activities, 26.25% in industry sector and 45.24% in service sector which was 24.87% in agriculture and allied activities, 35.86% in industry sector and 39.27% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 71800 in the year 2020-21 as per advance estimates which was Rs 36465 in the year 2011-12.

4. Baran

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 17785 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.85% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 50.30% in agriculture and allied activities, 11.64% in industry sector and 38.06% in service sector which was 54.27% in agriculture and allied activities, 11.94% in industry sector and 33.79% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 115447 in the year 2020-21 as per advance estimates which was Rs 56907 in the year 2011-12.

5. Barmer

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 40954 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 7.39% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 23.64% in agriculture and allied activities, 51.52% in industry sector and 24.84% in service sector which was 23.35% in agriculture and allied activities, 56.88% in industry sector and 19.77% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 121336 in the year 2020-21 as per advance estimates which was Rs 68155 in the year 2011-12.

6. Bharatpur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 28179 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.58% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 37.59% in agriculture and allied activities, 15.20% in industry sector and 47.21% in service sector which was 29.86% in agriculture and allied activities, 23.29% in industry sector and 46.85% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 88097 in the year 2020-21 as per advance estimates which was Rs 39192 in the year 2011-12.

7. Bhilwara

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 43366 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.64% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 21.16% in agriculture and allied activities, 43.31% in industry sector and 35.54% in service sector which was 16.24% in agriculture and allied activities, 54.84% in industry sector and 28.92% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 139150 in the year 2020-21 as per advance estimates which was Rs 76414 in the year 2011-12.

8. Bikaner

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 34260 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.02% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 38.63% in agriculture and allied activities, 17.22% in industry sector and 44.15% in service sector which was 47.41% in agriculture and allied activities, 19.17% in industry sector and 33.42% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 113897 in the year 2020-21 as per advance estimates which was Rs 69327 in the year 2011-12.

9. Bundi

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 16216 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.72% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 42.43% in agriculture and allied activities, 15.21% in industry sector and 42.35% in service sector which was 46.18% in agriculture and allied activities, 18.60% in industry sector and 35.22% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 116106 in the year 2020-21 as per advance estimates which was Rs 61245 in the year 2011-12.

10. Chittorgarh

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 24547 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.56% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 36.05% in agriculture and allied activities, 24.65% in industry sector and 39.30% in service sector which was 34.64% in agriculture and allied activities, 26.85% in industry sector and 38.51% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 124566 in the year 2020-21 as per advance estimates which was Rs 57119 in the year 2011-12.

11. Churu

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 21029 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.34% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 36.29% in agriculture and allied activities, 10.61% in industry sector and 53.10% in service sector which was 39.05% in agriculture and allied activities, 13.26% in industry sector and 47.69% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 81683 in the year 2020-21 as per advance estimates which was Rs 40286 in the year 2011-12.

12. Dausa

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 17306 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.42% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 36.06% in agriculture and allied activities, 14.12% in industry sector and 49.82% in service sector which was 34.84% in agriculture and allied activities, 17.35% in industry sector and 47.80% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 84808 in the year 2020-21 as per advance estimates which was Rs 37931 in the year 2011-12.

13. Dholpur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 11624 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.84% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 34.87% in agriculture and allied activities, 19.48% in industry sector and 45.65% in service sector which was 34.04% in agriculture and allied activities, 21.10% in industry sector and 44.86% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 76266 in the year 2020-21 as per advance estimates which was Rs 33979 in the year 2011-12.

14. Dungarpur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 10802 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.48% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 26.83% in agriculture and allied activities, 16.57% in industry sector and 56.60% in service sector which was 27.67% in agriculture and allied activities, 21.24% in industry sector and 51.08% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 61677 in the year 2020-21 as per advance estimates which was Rs 30508 in the year 2011-12.

15. Ganganagar

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 35170 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 2.44% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 39.17% in agriculture and allied activities, 18.54% in industry sector and 42.29% in service sector which was 39.40% in agriculture and allied activities, 30.95% in industry sector and 29.65% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 139135 in the year 2020-21 as per advance estimates which was Rs 89724 in the year 2011-12.

16. Hanumangarh

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 28725 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.42% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 44.55% in agriculture and allied activities, 19.76% in industry sector and 35.69% in service sector which was 51.62% in agriculture and allied activities, 21.52% in industry sector and 26.86% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 126733 in the year 2020-21 as per advance estimates which was Rs 74689 in the year 2011-12.

17. Jaipur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 122143 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.16% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 13.24% in agriculture and allied activities, 28.49% in industry sector and 58.27% in service sector which was 11.35% in agriculture and allied activities, 41.01% in industry sector and 47.64% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 141305 in the year 2020-21 as per advance estimates which was Rs 76588 in the year 2011-12.

18. Jaisalmer

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 11465 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.34% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 54.12% in agriculture and allied activities, 17.83% in industry sector and 28.05% in service sector which was 62.38% in agriculture and allied activities, 14.66% in industry sector and 22.97% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 132680 in the year 2020-21 as per advance estimates which was Rs 75218 in the year 2011-12.

19. Jalore

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 18476 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.01% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 41.81% in agriculture and allied activities, 13.99% in industry sector and 44.20% in service sector which was 44.22% in agriculture and allied activities, 16.89% in industry sector and 38.88% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 80295 in the year 2020-21 as per advance estimates which was Rs 40688 in the year 2011-12.

20. Jhalawar

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 19566 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.05% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 42.89% in agriculture and allied activities, 17.92% in industry sector and 39.20% in service sector which was 41.46% in agriculture and allied activities, 22.82% in industry sector and 35.72% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 109431 in the year 2020-21 as per advance estimates which was Rs 53104 in the year 2011-12.

21. Jhunjhunu

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 23765 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.35% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 32.36% in agriculture and allied activities, 13.61% in industry sector and 54.03% in service sector which was 33.63% in agriculture and allied activities, 15.38% in industry sector and 50.99% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 87562 in the year 2020-21 as per advance estimates which was Rs 40371 in the year 2011-12.

22. Jodhpur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 49421 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.69% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 31.87% in agriculture and allied activities, 18.37% in industry sector and 49.76% in service sector which was 27.40% in agriculture and allied activities, 25.83% in industry sector and 46.77% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 104422 in the year 2020-21 as per advance estimates which was Rs 51453 in the year 2011-12.

23. Karauli

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 15545 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.69% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 45.15% in agriculture and allied activities, 12.24% in industry sector and 42.61% in service sector which was 42.80% in agriculture and allied activities, 15.50% in industry sector and 41.70% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 85647 in the year 2020-21 as per advance estimates which was Rs 38124 in the year 2011-12.

24. Kota

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 31261 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.44% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 22.13% in agriculture and allied activities, 23.13% in industry sector and 54.75% in service sector which was 22.47% in agriculture and allied activities, 28.09% in industry sector and 49.44% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 124584 in the year 2020-21 as per advance estimates which was Rs 63585 in the year 2011-12.

25. Nagaur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 37605 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.98% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 35.34% in agriculture and allied activities, 19.54% in industry sector and 45.12% in service sector which was 31.55% in agriculture and allied activities, 25.75% in industry sector and 42.70% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 89746 in the year 2020-21 as per advance estimates which was Rs 41696 in the year 2011-12.

26. Pali

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 27190 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.05% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 25.15% in agriculture and allied activities, 26.94% in industry sector and 47.91% in service sector which was 24.93% in agriculture and allied activities, 33.78% in industry sector and 41.29% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 105072 in the year 2020-21 as per advance estimates which was Rs 55110 in the year 2011-12.

27. Pratapgarh

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 9816 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.51% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 49.12% in agriculture and allied activities, 11.52% in industry sector and 39.36% in service sector which was 49.17% in agriculture and allied activities, 12.52% in industry sector and 38.31% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 90193 in the year 2020-21 as per advance estimates which was Rs 40812 in the year 2011-12.

28. Rajsamand

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 16947 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.45% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 18.36% in agriculture and allied activities, 41.23% in industry sector and 40.41% in service sector which was 16.56% in agriculture and allied activities, 44.46% in industry sector and 38.98% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 114290 in the year 2020-21 as per advance estimates which was Rs 52768 in the year 2011-12.

29. Sawai Madhopur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 16018 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 3.80% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 39.03% in agriculture and allied activities, 12.70% in industry sector and 48.27% in service sector which was 33.55% in agriculture and allied activities, 26.48% in industry sector and 39.97% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 95371 in the year 2020-21 as per advance estimates which was Rs 50553 in the year 2011-12.

30. Sikar

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 32906 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.51% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 31.95% in agriculture and allied activities, 17.12% in industry sector and 50.93% in service sector which was 30.15% in agriculture and allied activities, 24.23% in industry sector and 45.62% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 98092 in the year 2020-21 as per advance estimates which was Rs 47016 in the year 2011-12.

31. Sirohi

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 14859 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 5.18% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 32.93% in agriculture and allied activities, 27.10% in industry sector and 39.98% in service sector which was 34.21% in agriculture and allied activities, 27.67% in industry sector and 38.12% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 113485 in the year 2020-21 as per advance estimates which was Rs 55303 in the year 2011-12.

32. Tonk

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 17813 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.58% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 42.05% in agriculture and allied activities, 14.65% in industry sector and 43.29% in service sector which was 40.49% in agriculture and allied activities, 22.09% in industry sector and 37.43% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 99794 in the year 2020-21 as per advance estimates which was Rs 49782 in the year 2011-12.

33. Udaipur

The size of the economy i.e. DDP at Current Prices is estimated to be Rs 39877 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.83% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 26.05% in agriculture and allied activities, 23.99% in industry sector and 49.96% in service sector which was 23.64% in agriculture and allied activities, 31.39% in industry sector and 44.97% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 103135 in the year 2020-21 as per advance estimates which was Rs 52242 in the year 2011-12.

Overall State

The size of the economy i.e. GSDP at Current Prices is estimated to be Rs 957912 crore in year 2020-21 as per the advance estimates. The economy is expected to register a compound average growth rate of 4.45% during the period 2011-12 to 2020-21 at constant (2011-12) prices.

The sectoral composition for the district in the year 2020-21 at current prices is estimated to be 29.77% in agriculture and allied activities, 24.80% in industry sector and 45.44% in service sector which was 28.56% in agriculture and allied activities, 32.69% in industry sector and 38.75% in service sector in 2011-12.

Per Capita Income at current prices is estimated to be Rs 109386 in the year 2020-21 as per advance estimates which was Rs 57192 in the year 2011-12.

Gross District Domestic Product at constant (2011-12) prices

According to gross district domestic product at constant (2011-12) prices for the year 2011-12, Jaipur being the capital of the state have the highest value and contributed to 11.1% in state's GDP. Jaipur was followed by Alwar which contributed to 8.12% in state's GDP then Jodhpur whose contribution was 4.85% followed by Bhilwara contributing to 4.76% and Barmer contribution was 4.57%.

The 5 districts having least gross district domestic product at constant (2011-12) prices in the same year were Pratapgarh higher than that was Dholpur then Dungarpur followed by Jaisalmer then Karauli which collectively contributed to 5.65% to state's gross domestic product.

In 2020-21 there was slight change in ranking of districts according to gross district domestic product at constant (2011-12) prices. Among the top 5 districts, Jaipur still remained on top contributing to 12.87% to state's GDP, followed by Alwar contributing to 7.43% to GSDP. Barmer is contributing 5.87% then Jodhpur contributing to 4.96% and then Bhilwara whose contribution is 4.44% to state's gross domestic product.

The 5 districts having least gross district domestic product at constant (2011-12) prices remained almost same as 2011-12 they are Pratapgarh higher than that was Dungarpur then Dholpur followed by Jaisalmer then Sirohi which collectively contributed to 5.90% to state's gross domestic product

SECTORAL DISTRIBUTION OF GROSS DISTRICT DOMESTIC PRODUCT

The economy of district is also divided into three sectors i.e. agriculture, industry and service sector in the same pattern as the economy of the state. The agriculture & allied activities of the economy constitutes mainly crops, livestock, fishing and forestry & logging. The industry sector consists of mining & quarrying, manufacturing, electricity, gas, water supply & other utility services, construction while the service sector consists of all types of services including trade, hotel, transport, communication and services related to broadcasting, financial, real estate & professional services, public administration and other services.

Initially the country's as well as the state's economy was predominantly rural and agriculture based. Since then the economy has gradually diversified and matured as a result the contribution of the service sector is gradually increased.

In the state's economy the contribution of agriculture & allied activities is increased from 28.56 per cent in 2011-12 to 29.77 per cent in the year 2020-21 while the contribution of service sector is increased from 38.75 per cent in 2011-12 to 45.44 per cent in the year 2020-21 and the share of industry sector decreased from 32.69 to 24.80 in 2020-21 per cent at current prices.

Figure 5

The Sector wise composition GSVA at current prices of district Jaipur in the year 2011-12 was 11.35% in agriculture sector, 41.01% in Industry sector while maximum share taken by service sector i.e. 47.64%.

The second district which had the maximum share in state s D was Alwar in which major share was taken up by Industry sector contributing to 59.59% followed by services giving a share of 23.84% and least was agriculture having a share as low as 16.56%. Jodhpur district which contributed to 4.85% in GSDP has a sectoral contribution of 27.40%, 25.83% and 46.77% in agriculture, industry and service sector respectively. 4th and 5th position was taken up by Bhilwara and Barmer contributing to 16.24%, 54.84%, 28.92% and 23.35%, 56.88%, 19.77% in agriculture, industry and service sector respectively.

In the year 2020-21, the sectoral composition at current prices for Jaipur 13.24% in agriculture sector, declined to 28.49% in Industry sector while in service sector it increased to 58.27% as compared to the year 2011-12.

Alwar district maintained second rank in state s D at current prices which major share was taken up by Industry sector which declined to 45.58% followed by services whose share increased to 33.62% and least was agriculture which reach at 20.80%.

Jodhpur also sustained his position which had the third maximum share in state s D at current prices. Which major share was taken up by services Sector whose share increased to 49.76% and agriculture sector which reach at 31.87% and least was Industry sector which declined to 18.37%. Barmer and Bhilwara contributing to 23.64%, 51.52%, 24.84% and 21.16%, 43.31%, 35.54% in agriculture, industry and service sector respectively.

In the year 2020-21 at current prices the districts whose economies are mainly based of agriculture and allied activities are Jaisalmer with 54.12% followed by Baran with 50.30% followed by Pratapgarh with 49.12%, Karauli with 45.15% and Hanumangarh with 44.55% whereas the state average of 29.77%.

In the year 2020-21 at current prices the districts whose economies are mainly based of Industries are Barmer with 51.52% followed by Alwar with 45.58% followed by Bhilwara with 43.31%, Rajsamand with 41.23% and Jaipur with 28.49%. Whereas the state average stand at 24.80%.

In the year 2020-21 at current prices the districts whose economies are mainly based of Service sector are Jaipur with 58.27% followed by Dungarpur with 56.60% followed by Kota with 54.75%, Jhunjhunu with 54.03% and Ajmer with 53.33%. Whereas the state average stand at 45.44%.

The following graph shows the sector wise composition of all the districts at current as well as at constant (2011-12) prices for the year 2020-21.

METHODOLOGY FOR PREPARATION OF DISTRICT INCOME ESTIMATES

The methodology for preparation of District Income estimates very much depends on availability of basic data at district level. There data available at the District level is not satisfactory for estimation of income at the district level. Nevertheless, the data in respect of Primary Sector is fairly sound, but appears to be very scanty in respect of remaining sectors. Therefore the district level data could be utilized to the extent of its availability to compute the district income estimates adopting the state level methodology. In the case of non-commodity producing sectors, where the district wise basic data are not available, the State level estimates are allocated to the districts on the basis of suitable district wise indicators. Further, in some of the commodity producing sectors, though the district wise production data are available, the corresponding prices may not be available. In such cases, district wise production and State average prices will have to be utilized for preparation of district income estimates. Apart from this, wherever certain ratios, norms, yield rates etc., are used for the State level estimates and which are normally not available at the district level, the State level ratios, yield rates etc., will have to be used for district income estimates.

Sector wise details of methodology for preparation of Gross District Value Added (GDVA) are given below

1) CROPS

As in the Crop Sector district level data on production and prices are generally not available uniformly for all the crops, hence for estimation purpose, crops can be classified in different categories as follows:

- i.** Crops for which district-wise data on area, production and prices are available: District-wise value of output for each crop is worked out using district-wise production and prices. Average wholesale prices as collected for principal crops barring some other minor crops like small millets, other pulses, other oilseeds, sun-hemp, Mesta, etc. from defined peak marketing period are used with the production for the purpose of valuation.
- ii.** Crops for which district-wise production is available but corresponding prices are not available: In such cases state weighted average prices are used for valuation. Using CSO norms, district level prices of small millets, other pulses and other oilseeds are used for preparing district level estimates.
- iii.** Crops for which district-wise data, both on production and prices are not available but area is available: In such cases, district- wise value of output is worked out by allocating the state level value of output on the basis of

district-wise area of the crops. Value of by-product of different crops is calculated by multiplying corresponding area of crops to prices provided by CSO. In case of kitchen garden 0.21 percent of net area sown of corresponding districts multiplying by value per hectare of fruits & vegetables except other fruits and vegetables.

- iv. **Miscellaneous and unspecified crops:** The crops for which neither production nor prices are available even at the state level but district-wise area is available, the value of output is worked out with the help of district-wise area and state level value per hectare.

Value of Inputs: As at the state level estimates, to arrive at the district wise Gross Value Added (GVA) from Crop sector, value of various input items are to be first deducted from the Gross Value of Output (GVO) of this sector and then the gross product from operation of Government Irrigation System is added to that. The deductible inputs are same as used at the State level viz. i) Seed, ii) Organic manure (Cattle and Buffalo dung), iii) Chemical Fertilizers iv) feed of livestock, v) Pesticides & Insecticides, vi) Diesel oil consumption vii) electricity, viii) Irrigation charges, ix) market charge, x) Repairs and Maintenance of fixed assets and other operational costs and (xi) FISIM.

To work out the value of these input items at the district level, the state level estimates arrived at independently under the Current series of state income estimates are distributed to various districts in proportion to district wise Gross Value of Output (GVO) of crop sector.

2) LIVESTOCK

Similar procedure as adopted at the state level may be followed at the district level also. District-wise estimates of no. of different categories of animals and poultry is worked out from the results of latest three livestock census assuming linear/compound growth rates and utilized along with relevant yield rates to obtain the estimates of production of various livestock products and by-products and poultry meat. The study provided ratio of meat products and meat by-products to total meat produced in terms of value and quantity for each species of livestock, percentage share of value of meat products and meat by-products to total value of meat has been used in estimation of value of total output of meat. Estimation of Dung by including Sheep and Goat droplets.

- i. The results of Integrated Sample Survey (ISS) conducted by State Animal Husbandry Department provide State/District level data on production of milk, meat, wool and egg. It also provides estimates of category wise number of slaughtered animals. Wherever, ISS results are available only for the

State, the estimates for district may be obtained by allocating the same to the districts on the basis of relevant livestock population. To estimate district-wise production of all other items (i.e. other than milk, meat, egg and wool), state level yield rates and ratios are utilized along with district estimates of number of relevant animals/poultry.

- ii. District-wise value of output may then be worked out by evaluating the production obtained as above, by the corresponding district prices, wherever available. In the absence of district level prices, the state prices are utilized for evaluating the district production. The total of the value of output thus worked out is adjusted to the state level estimates.
- iii. In case of other animal products, the state level value is distributed between the districts in proportion to the number of animals of each category separately.
- iv. District-wise increment in stock for each category of animal/poultry is worked out as at the State level value is distributed between the districts in proportion to the district wise number of animals of each category separately.

Value of Inputs: As at the state level estimates, to arrive at the district wise Gross Value Added (GVA) from livestock sector, value of various input items are to be first deducted from the Gross Value of Output (GVO) of this sector.

3) FORESTRY AND LOGGING

The estimates of State Domestic product from forestry sector are prepared by following the production approach except in case of fuel wood for which consumption approach is applied. State level estimates of this sector are distributed in the ratio of district-wise forest area to arrive at the estimates of districts.

The value of output of major and minor forest products is added and 16.2 per cent of this is considered as cost of repairs and maintenance. This is to be deducted from GVO to get GVA.

4) FISHERIES

The value of output is worked out by multiplying the production by prices of inland fish, along with value of subsistence fish @ 12.5 percent of value of inland fish and added. Wherever, the district wise prices are not available, then district wise value has to be worked out using district wise production and state level prices in which case, state level prices are to be obtained. The operational costs including repairs and maintenance, i.e., @ 10 percent of value of inland fish and one percent of value

of subsistence fish is to be deducted as inputs from gross value of output to get GVA.

5) MINING AND QUARRYING

The gross value of output is to be estimated on the basis of value of major and minor minerals. For both major & minor minerals, the district wise value of output is collected from the state Mines and Geology Department. The state value is allocated among district separately for major minerals, minor minerals, sand and petroleum as below:

Major Minerals: The district wise value of output of major minerals is added up to allocate the state value.

Minor Mineral: The district wise value of output of major minerals is added up to allocate the state value.

Sand: The value of sand is allocated among districts on the basis of one third part sale value of kankar bajri in districts.

Petroleum & Natural Gas: The value allocated among districts on the basis of production and royalty obtained petroleum department.

The unadjusted GVA of all four is then added and input cost and FISIM is deducted to get GVA.

6) MANUFACTURING (ORGANISED AND UN-ORGANISED)

The Annual Survey of Industries (ASI) is the only comprehensive source of data for the registered manufacturing sector. However, ASI provides estimates for the manufacturing establishments only, and therefore, does not provide any estimates for trading and other activities that may be provided elsewhere by the enterprise. Therefore, the services carried out by the manufacturing enterprises were not adequately covered in the ASI. In the new series, estimates have been derived using the annual accounts of Non Departmental Enterprises (NDE), Private corporate sector from MCA data base and quasi-corporations as covered by ASI, apart from the Departmental Enterprises (DEs), like Railway Workshops, GOI Printing Press and Ordnance Factories. The effective labour input method has been used for compilation category wise estimation of GVA of unincorporated manufacturing enterprises from the NSS 67th round Survey on Unincorporated Enterprises, 2010-11 and NSS 68th round Employment Unemployment Survey, 2011-12. MCA21 database not availability of the districts level for district-wise estimates, the State level estimates of this sector are distributed among the districts in the proportion of district-wise labour input (work force) from ASI report.

7) ELECTRICITY, GAS, WATER SUPPLY & OTHER UTILITY SERVICES

- i. **Electricity:** The State level estimates of GVA for electricity are allocated to the districts on the basis of number of technical and non-technical workers in electricity sector in the respective districts.
- ii. **Gas:** In case of Gas sub-sector, the State level GVA distributed to districts according to the district wise population of cattle.
- iii. **Water Supply & Other Utility Services:** The State level estimates of GVA from water supply & other utility services have been bifurcated among districts on the basis of working force engaged in water supply & other utility services, obtained from the 6th Economic census.

8) CONSTRUCTION

Estimates of Gross Domestic Product for construction sector are worked out by following expenditure approach. For estimation purpose, construction sector is divided into public, supra-region, household and residual parts which are as under:

- i. **Public & Supra-Regional:** Public sub-sector includes Central government administration Departmental Commercial undertakings (DCUs) State government administration DCUs DCUs (Central State) State GVA of above sub-sectors are allocated on the basis of working force engaged in construction activities obtained from 6th Economic Census. Supra Regional sub-sector consist of Railways which is allocated among the districts on the basis of number of railway stations obtained from the study on Railway Sector by State DES.
- ii. **RRBs, URBs, NRBs, Plantation and Other Household:** construction activities undertaken by the household sector (both rural and urban), State level estimates are allocated among the districts in the proportions of projected number of houses separately for urban and rural areas. For non-residential building and other construction activities, it has been distributed among the districts on the basis of average of number of houses urban and rural houses. State level estimates of Plantation and Other Household are allocated to district wise working force engaged in construction activity obtained from 6th economic census.
- iii. **Residual:** State level GVA including quasi government is supplied by CSO. It is distributed among the districts in the proportion of working force engaged in construction activities.

Thus, the estimates arrived separately as above are aggregated at the district level to provide estimates of district domestic products from construction activities.

9) **TRADE, HOTELS AND RESTAURANTS**

To estimate District Domestic product of this sector, Gross value added at state level is to be allocated in proportion of number of persons employed in trade obtained from sixth economic census.

10) **RAILWAY**

The State level GVA of this sector is supplied by the CSO which was allocated to the districts in proportion of railway stations in the old base series. This indicator was inappropriate and did not give true picture of a district. For estimation of the district income The Directorate of Economics and Statistics conducted a study on railway sector and obtained district wise gross salary of workers employed in railway sector. Now in the new base year the GVA is allocated among various districts in proportion of district wise gross salary of workers employed in railways.

11) **TRANSPORT BY OTHER MEANS THEN RAILWAYS**

a) **Road Transport:**

- (i) Public Sector: District wise working force of RSRTC employees obtained from their annual report.
- (ii) Private Sector: The value added from private sector is allocated to the districts on the basis of district wise commercial vehicles registered in the district obtained from Transport Commissioner.

GVA is obtained by adding public and private sector estimates.

b) **Water Transport:** It is Nil in the state.

c) **Air Transport:** The State Income from this sub-sector is allocated to the districts in 20:80 ratio where 20 per cent is equally allocated to the districts with airports and remaining 80 per cent is allocated to all the districts having airports on the basis of number of air passengers.

d) **Services incidental to transport:** The State Income from this sub-sector is allocated to the districts on the basis district wise combines GVA of road and air transport.

From the gross value added obtained by adding all [(a) to (d)] FISIM is to be deducted to get final GVA.

12) STORAGE

State level estimates are allocated to districts on the basis of Occupancy of state and central warehousing Godwans situated in the district.

13) COMMUNICATION AND SERVICES RELATING TO BROADCASTING

Estimates of State level GVA are allocated among various districts in proportion of number of persons engaged (Working Force) in communication services in the districts which was obtained from the 6th Economic Census.

14) FINANCIAL SERVICES

In the Old base the state level estimates were allocated to the districts in proportion to total credit and deposits in each district and in Insurance the State level estimates were allocated in proportion to employment in insurance sector which were inappropriate indicators. For estimation of the district income The Directorate of Economics and Statistics conducted a study on banking sector. Now in the new base year the GVA is allocated among various districts in proportion of district wise gross salary of workers employed in banking and insurance sector.

15) REAL ESTATE, OWNERSHIP OF DWELLINGS & PROFESSIONAL SERVICES

To prepare the District Domestic Product of this sector allocation method is used. The cooperate part of state level GVA is distributed on the basis of District wise work force obtained from 6th Economic census. The Un-incooperate part distributed on the basis of District wise work force obtained from 68th round of NSS and ownership of Dwelling distributed on basis of Number of Household.

16) PUBLIC ADMINISTRATION

To obtain the District level estimates, State level data is allocated in proportion of number of State Government employees in the districts. No. of state Government Employees in Districts is obtained from the publication Census of state Government Employees published by DE

17) OTHER SERVICES

The economic activities covered under this sector are as under:

- i. Educational Services,
- ii. Medical & Health Services,

- iii. Membership of Organizations not elsewhere classified,
- iv. Recreational services,
- v. Washing and Cleaning,
- vi. Hair Dressing,
- vii. Tailoring,
- viii. Funeral activities,
- ix. Private House Hold and
- x. Extra Territory services.

The District wise estimates of these sub activities are based on allocation method. The Education services, Medical services and others are estimated separately.

For allocate the cooperate part of state level education sector, district wise gross value added obtained from the survey conducted by Directorate of Economics and Statistics was used.

For remaining the state level estimates of cooperate part is in these services are distribution on the basis of District wise work force obtained from 6th Economic Census.

For Un-incooperate part of all the three sectors distributed the ratio based on district wise workforce obtained from 68th round of NSS is used.

LIMITATIONS OF DATA:

The district level estimates of income suffer from a number of limitations that relate to the inadequacy of data and methodology adopted. It is, therefore, suggested that these estimates may be used with discretion and caution. Important limitations are listed below:

- As regards data on district-wise output, wherever not available, the State level data of output have been distributed among various districts in the proportion of some suitable indicators.
- As regards district level prices, where not available, the State level prices or the prices of adjoining districts have been used as an alternative.
- For the purpose of district-wise cost of input items of crop, livestock and fisheries, the State level norms have been applied.

- Rates and ratio norms of different livestock products are available only at the State level and so those have been adopted uniformly for all the districts.
- For commodity producing sectors the estimates for the year 2011-12 to 2018-19 are prepared on the basis of the methodology given and estimates for year 2019-20 and 2020-21 are prepared using allocation method with best possible indicators.
- The service sector based on Working force and GVA per worker and such data according to District wise are periodically available which requires updation for further year.
- In respect of supra regional sectors, State level estimates supplied by the Central Statistical Office, are allocated in the proportion of some suitable indicators to the districts.
- Bikaner being a dry region still contributing maximum to crop sector for year 2011-12 is due to rise in prices of guar seeds.
